EDUCATION

Bachelor of Science - Computer Science Major, University of Canterbury
GPA: 5.7 Minor in Game Development

August 2024

SKILLS

Languages	Javascript, Python, HTML, CSS, mySQL, Java, C#, C
Frameworks	Apache Spark, Unity Engine, Django
Tools	Git, AWS, PowerBI, Grafana, Azure, Zoho, VSC, Google Cloud, Visual Studio, Linux CLI
Soft Skills	Extroverted, Communication, Problem Solving, Leadership, Accountability

PROJECTS

Automated Data Retrieval Python, REST API, Gallagher database, PowerBI [GitHub](#)

- Communicated amongst external teams to organise Gallagher's endpoint to retrieve data on company security info.
- Retrieved data and converted to a readable .csv format to autonomously integrate into a Power BI dashboard.
- Implemented REST API loop to retrieve information.
- Gained incredible insights how poorly data was managed, and needed overhaul of input system.

Portfolio Page HTML, JS, JavaScript, Frontend Dev [Page Link](#) [GitHub](#)

- Created a portfolio page specifically to help display my proudest achievements with dev.
- Used as improvement opportunity for Javascript, HTML, and CSS.
- Utilised the github deployment to publicly display the page.

Collaborative Video Game C#, UnityEngine, Submitted for competition [Itch.io](#)

- Competed alongside team members to develop a themed game in less than 72 hours.
- Utilised and managed team members into their associated skills, testing time management.
- Programmed and deployed base logic for rhythmic elements in C# whilst offering design decision and art support.
- Used common collaboration tools such as Git Version control and Visual Studio Code extensions.

CERTIFICATIONS

• Comprehensive Workplace First Aid	September 2023
• ITIL 4 Foundations Certified	September 2024
• AWS Certified Cloud Practitioner	August 2025
